LEAFLIFE

MJOLNIR OWNERS EXCLUSIVE

CUSTOMER EXPERIENCE CAMPAIGN 2026

YOUR RESULTS. YOUR STORY. REWARDED.

A dedicated **follow-up & user experience campaign** for owners of the **Mjolnir Pro** (3rd Gen) and **Mjolnir Trio** (4th Gen) fractional cold plasma platforms. Share how your machine performs in real clinical practice — and receive a generous thank-you gift.

MJOLNIR PRO
3rd Generation · Desktop Platform

MJOLNIR TRIO
4th Generation · PCT Approved

20 TIPS FREE

Every qualifying submission earns 20 genuine treatment heads — compatible with your machine, shipped free of charge.

01 WHY WE ARE WRITING TO YOU

Dear Mjolnir partner, thank you for choosing LeafLife. Your Mjolnir has now been working in your clinic for some time — and **your real-world experience is the most valuable evidence we have**. We are personally following up with every owner to listen, to improve, and to collect the clinical stories that help more practitioners discover what fractional cold plasma can do. This poster explains exactly what to share, how to share it, and what you will receive in return.

— The LeafLife Team, Shenzhen

02 WHAT WE'D LOVE TO KNOW

Please cover the four points below in your feedback — written or spoken:

★ YOUR OVERALL EVALUATION

How does the machine perform in daily work? **Stability, treatment efficiency, ease of operation**, patient comfort — and how it compares with your expectations and with other devices you have used.

🛠 ISSUES & IMPROVEMENTS

Have you met **any problems during use** — operation, accessories, workflow, training or after-sales? Tell us honestly what happened and **what you hope we will improve**. Every suggestion goes directly to our R&D team.

📈 CLINICAL RESULTS & DATA

Your **best clinical outcomes**: before/after changes, treatment parameters (energy level, mode, dot pattern), number of sessions, and treatment areas. Real data from real practices is what convinces new customers.

💎 MOST-USED & BEST-PERFORMING TREATMENTS

Which treatment indications do you use most? Which give the best visible results — e.g. eyelid lifting, wrinkles, scars, acne, skin resurfacing, scalp & hair — and **which get the best patient feedback**?

03 TWO WAYS TO SHARE

Choose whichever format suits you — both earn the full reward:

OPTION A

VIDEO STORY · filmed with your machine

- Film **at your clinic / place of business**, together with your Mjolnir machine in the frame.
- Start with a **self-introduction**: your name, your clinic, your city, and what you specialize in.
- Present the machine and share your experience: the four feedback points in Section 02.
- Show a treatment scene or before/after results if your patients consent.

Suggested: 1–3 minutes, horizontal (landscape), steady & well-lit. Phone footage is perfectly fine — authenticity beats production value.

OPTION B

PHOTOS + WRITTEN STORY · if you prefer not to film

- A **written self-introduction**: who you are, your clinic, your city, your specialty.
- **Written feedback** covering the four points in Section 02 (any length, any language).
- **Photos of you and your machine at your place of business** — at least 3 clear, well-lit shots (you operating the machine, the machine in your clinic, a close-up of a treatment).

Photos should show both you and the machine clearly. JPG/PNG, any resolution above 1 MP.

04 YOUR REWARD

20 TREATMENT HEADS

20 GENUINE TREATMENT HEADS — FREE

Every customer whose submission meets the requirements above receives **20 original treatment heads**, compatible with your own model (**Mjolnir Pro or Mjolnir Trio**).

Reviewed and confirmed within **7 working days** · shipped free of charge · one reward per machine.

05 QUICK SUBMISSION CHECKLIST

- ☑ **You + machine, on camera or in photos,** at your place of business.
- ☑ **All four feedback points** from Section 02 are covered.
- ☑ **Your consent** — allow LeafLife to share your story in official channels (with credit to your clinic).
- ☑ **Mention your model** — Mjolnir Pro (3rd Gen) or Mjolnir Trio (4th Gen).
- ☑ **Real & specific** — actual parameters, session counts, indications.
- ☑ **Patient privacy respected** — no patient faces or data without written consent.
